Shari Lyon

Author/Publisher Shari Lyon fully believes in the power of story and song to inspire and educate people of all ages.

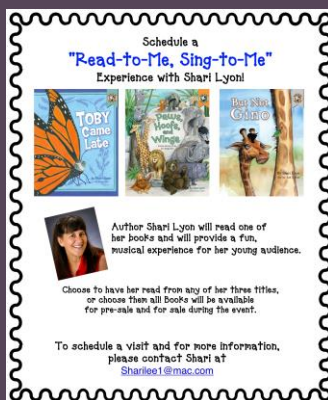

She knows stories and songs always bring a dynamic force to encourage actions to make our world a better, kinder place.

Whether the event calls for her to speak, read and sign her books, or simply help others get their stories out into the world, she offers her own personal flavor and an affinity for children. With 40 years of teaching and performing experience she delivers compelling yet relatable presentations for classroom visits, teacher conferences, interviews, panels, retreats, and workshops. Children and grown-ups find more than a connection with Shari and her stories; they often move forward with projects of their own to share with their loved ones and the rest of the world.
